

New Step
Tessaban 3 (Yommarat samakki) School
What's more, we've got all you need....

“60 Years”

of experience and pride leading
to standard quality language education.

Tessaban 3 (Yommarat Samakki) School belongs to the municipality of Nakhon Ratchasima, Nakhon Ratchasima Province. The institution had been using the curriculum prescribe by the ministry of education. An academy award has been conferred three times for passing the quality external audit from the national education standards and quality assessment which is a public organization established for both early basic education and early childhood education. The school has been selected as model school in Technology by the department of local administration which belongs to the Ministry of Interior. This award has been recognized by the parents, stake holders and other educational institutions.

In 2009 the Administration of the municipality of Nakhon Ratchasima has seen the importance of language and technology development. The school then developed curricula to instill a love of learning English for them to improve their knowledge, in every skill of English language. Under the vision of Tessaban 3 (Yommarat Samakki) school that is to focus on education management, create an atmosphere conducive to learning, produce quality students, promote English communication and technology proficiency.

Curriculum standard

The administration focuses on the academic curriculum for the students to excel in English language as it is the way for them to keep up with the Asean community in the 21 -century. The students should communicate in more than two languages especially English and Chinese as they are used as an international language. Focus on practicing language skill inside and outside the classroom based on real life situations.
